

The logo for TCR (Total Cleaning & Remediation) features the letters 'TCR' in a bold, white, sans-serif font, each letter contained within a white rectangular box that is slightly offset from the others, creating a 3D effect. The boxes are set against a solid green background.

Total Cleaning & Remediation

“DUST IN THE DUCT” – Certified Remediation Course.

Cleaning technology for ventilation systems — the execution of the cleaning step-by-step.

Dear Colleague

OLD SYSTEMS

Dirty ventilation systems make people ill and houses uninhabitable!

Many ventilation systems are now very old and have never been cleaned. The observer can often see in these systems terrible images of the interior of the ducts; from dust to soil to mould and microbiological activity.

These ventilation systems can be effectively cleaned and disinfected with new technology.

Over the next years, a great number of service companies will be needed to undertake the big demand for cleaning.

KITCHEN EXTRACTION SYSTEMS

There is a considerable fire hazard in large kitchens and restaurants with respect to grease soiled extraction systems because these fat deposits can self-ignite. Last but not least, flames can transfer from the stove to the ducting. The new guidelines for the EU countries require therefore regular cleaning of exhaust systems in commercial kitchens.

In consequence – an enormous new market is waiting to be tapped! We offer the training seminar for your company to fill this gap in the market. Competent – comprehensive-and up to-date.

COSTS WITHIN REACH

The low financial commitment required for cleaning air duct systems and their proven usage makes this service an interesting proposition.

THE SCHOOLING

has as its main topic: **cleaning of the exhaust systems in commercial kitchens** and takes place in D-95180 Frankenwald respectively D-85551 Munich (Bavaria).

SANITATION NEW TECHNOLOGY

The training will be supplemented by some information about UV Air Purifier and Photocatalyst technology – please see encl. and www.tcr-crms.com

Should you have any questions, we are available, at any time in Bad Steben, Germany,

Telephone +49 – (0) 92 88 -46 19 64-0. E-mail info@tcr-crms.com

Yours sincerely,

Mats-Gunnar Roennhed
FMA, Chief Trainer
Tel: +49 (0) 175 – 835 82 26

**Attention: The Course is not a
Sales Presentation!!!**

Inscription – please see below

INSCRIPTION - to be completed in block letters and sent to TCR-CRMS[®] by

E-mail: info@tcr-crms.com or by post to TCR, Plauener Weg 4, D-95138 Bad Steben.

We would like to participate in the one day intensive training seminar
“Cleaning Technology for Ventilation Systems” in:

D-Frankfurt, Germany October, 23rd 2017 8:00 am – 17:00 pm

D-Berlin, Germany October 26th, 2017 8:00 am – 17:00 pm

Date for final application October 12th. Please apply in time.
